

# **DORMEX<sup>®</sup>**

## **PLANT GROWTH REGULATOR**

# A name you can trust.

Whether you are growing wine grapes or table grapes, you can trust the quality formulation of Dormex<sup>®</sup> (520g/L cyanamide). Dormex<sup>®</sup> – the best choice for regulating bud burst – is used for:

- Increased and more uniform bud break
- Advanced bud break, flowering and harvest
- Improved shoot selection and canopy development
- Better pest and disease control
- Even maturity and harvest
- Increased yield where chilling is inadequate

Trust Dormex for:

### **Stability**

The formulation contains a stabilizer to ensure product quality and stability during the season.

### **Safety**

Dormex contains a dye and taste deterrent for added peace of mind. Levels of thiourea (a toxic contaminant) in Dormex are guaranteed to be below 0.1%, the standard set by the EPA.

### **Supply**

Crop Care has extensive distribution facilities throughout Australia and can move product quickly to where it is needed.

### **Storage**

Crop Care stores product at 4°C until dispatch to ensure it remains in excellent condition all season. Crop Care always supplies fresh product each season.

### **Support**

Our Technical Sales Representatives are available to support you.
