Barrack Betterstick[®] Launch

Recently Crop Care has taken Barrack to another level and registered **Barrack Betterstick**, a new formulation that offers improved performance. Crop Care has conducted local field trials and substantial formulation work, which has resulted in a product with a unique polymer system and smaller active particle size. The benefits of **Barrack Betterstick** are:

- Multiple layers of protection
 - More even distribution
 - More surface area of active ingredient in contact with leaf surface
- = Superior rainfastness and disease protection.**

[®] Barrack 720 and Barrack Betterstick are registered trademarks.
